

Fantasy Fabrics Checklist

► **The fabric prices quoted below are per linear metre.** We try to have **metres, half-metres, and fat quarters** in stock for most fabrics. Packs of **fat sixteenths, 30×30cm** single squares, **20×20cm** “trial packs” and **10×10cm** “charm packs” can be made to order; small cutting charges will apply. Longer-lengths, out-of-stock and rarely-sold items may have to be ordered-in, so please give us plenty of time to meet your orders. “**p.o.a.**” stands for “price on application”. **E&OE. VAT is going up on 01/01/10 and many prices also.**

► **The “Ref” column** gives the section numbers of items in our full fabrics brochure (still in preparation).

► **PolyA** stands for Polyamide; **PolyE** stands for Polyester; **PolyEM** for Metallised Polyester.

► **We have made every effort to check the details listed above, especially the prices.** We have to respond quickly to price changes from manufacturers and wholesalers, so these are guide prices only. Also, please bear in mind that different dye stuffs affect the length, thickness and twist of fibres, so fabric widths vary with colour.

► **To press or not to press?... That is the question!** In the course of delivery, inspection and storage, some of our fabrics get rather creased, so why don't we "refresh" them before sale? **Because:** (1) they would tend to get "de-natured"; (2) it would cost you more; (3) they might well get crumpled in the post anyway; (4) you will most likely want to do it yourself! That's our excuse, and we're sticking to it!

Order before 1st February 2010 and we will hold these prices!!
